PRESENTATION

Volleyball World

Volleyball World was created in 2021 to provide fans, athletes, partners, and other sport aficionados with the ultimate volleyball and beach volleyball experience.

The organisation aims to grow the sport's two principal disciplines and attract new fans to the intense action and unique courtside entertainment which can be expected at its events.

Together with their main partner, the FIVB, Volleyball World organizes volleyball and beach volleyball events all year round and provides fans with worldwide coverage of the sport online.

Volleyball Nations League

The Volleyball Nations League was launched in 2018, building on the innovative sports presentation on display at the Rio 2016 Olympic Games.

In both the men's and women's leagues, 16 teams battle to become Volleyball Nations League champion. A total of 104 matches per gender will be played across the Preliminary and Final phases, with every team playing a minimum of 12 matches.

By pushing the boundaries of technology, innovation and digital broadcasting, spectators at home witness new and diverse angles,

showcasing the world-class athleticism of each nation's best players, while the in-stadium experience is no less impressive, boosted by the implementation of a new concept called active engagement, where fans are involved in every rally.

EQUAL JERSEY

EQUAL JERSEY EQUAL OPPORTUNITIES

It takes the entire volleyball community to keep the ball flying. Be part of the change, get your **Equal Jersey**.

Volleyball World is partnering with a nonprofit organization to help raise awareness of equal rights through the power of volleyball.

The first exciting step in the partnership was the launch of 2022 Equal Jersey campaign, which kicked off at the 2022 Volleyball Nations League (VNL) Finals.

With its introduction at last year's eagerly anticipated climax to the competition, the Equal Jersey initiative carried on from the huge success of the project started in 2021.

The Equal Jerseys are available to volleyball fans with part of the proceeds going directly to a chosen nonprofit organization, which set-up to leverage the power of volleyball to reach equality. The jerseys can be bought immediately [at the Volleyball World online shop](#).

Volleyball World CEO Finn Taylor said: "We believe in empowering the volleyball community to create an equal playing field regardless of gender, beliefs, or economic background – that is why this partnership is important to us.

"This year as part of the Equal Jersey campaign we want to provide a platform where fans and athletes feel welcome to share their equality story regardless of the angle."
