5. Qualification system

There is a total of forty-eight (48) teams per gender participating from around the world in the 2023 FIVB Beach Volleyball World Championships. The qualification system is open to all teams, respecting the principle of universality so that each continent will have its representation at the 2023 FIVB Beach Volleyball World Championships. The detailed breakdown of quota places are as follows:

Qualification Pathway	Qualification System
Wild Card	Three (3) teams per gender
FIVB WCH Entry Points – (Best 6 events from 1 st Feb to 21 st August 2023)	Twenty-five (25) teams per gender, based on the sum of ranking points accumulated from the best six (6) finishes over the period of 1st February to 21st August 2023, including minimum two (2) teams per gender guaranteed to the host country Mexico, regardless of the FIVB WCH Entry points
Continental Quota	Twenty (20) teams per gender (up to 4 teams per Confederation providing the players meeting Athletes' Eligibility requirement set out below in Point 3 of the 2023 FIVB BVB World Championships Qualification System document)
Total	48

The minimum quota places for the Host NF (Mexico) will be two (2) per gender regardless of the FIVB WCH Entry points on the day when the Confirmed Team Entry list is published on 25th August 2023. In case there will be one (1) or no team from the Host NF among the top twenty-three (23) teams per the FIVB WCH Entry Points as of 21st August 2023, then accordingly, one (1) or two (2) teams from the Host NF (Mexico) will be awarded the quota places, and the Host NF (i.e. Mexico) shall nominate the team name(s) to the FIVB in writing among the teams registered in the event in the VIS. Should the Host NF (Mexico) not specify the team's name(s), the FIVB will pick up the best (or best two) ranked eligible team(s) from the Host NF (Mexico) automatically as per the FIVB WCH Entry points on the day when the Entry list is dispatched.

Should the Host NF (i.e. Mexico) already have two (2) or more teams listed among the top twenty-three (23) teams per the FIVB WCH Entry Points calculated on 21st August 2023, the Host NF will not benefit from the above policy. The next two (2) eligible teams as per the FIVB WCH Entry points calculated on 21st August 2023 will be picked up to fill the roster, respecting the maximum quota places per NF.

The maximum quota places for the Host NF (Mexico) will be six (6) per gender. The maximum quota consists of any quota place(s) obtained through the FIVB WCH Entry Points, Continental Quota Qualification pathway and/or Host NF minimum quota places, excluding the wild cards. Additional teams out of the maximum quota will be then listed in the reserve list.

There is no minimum quota place for the foreign NF, while the maximum quota place for foreign NF will be maximum four (4) per gender. The maximum quota consists of any quota place(s) obtained through the FIVB WCH Entry Points and Continental Quota Qualification pathway, excluding the wild cards. Additional teams out of the maximum quota will be then listed in the reserve list.

11. COMPETITION SYSTEM

A total of 48 men's and 48 women's teams will take part in the 2023 FIVB Beach Volleyball World Championships. The total number of athletes will be 96 men and 96 women (grand total of 192 athletes).

The total number of matches will be 216, comprising of 108 men's and 108 women's matches. The 2023 FIVB Beach Volleyball World Championships will consist of a Preliminary phase (Pool Play), a lucky-loser round and a Single Elimination phase (Round of 32, Round of 16, Quarterfinals, Semifinals and Finals), for both genders.

Preliminary phase: Pool Play

48 teams playing in (12) pools of four (4) teams each played in standard Round Robin system. A drawing of lots will be held on 30 August 2023 in Tlaxcala Theatre to establish the seeding and distribution into pools.

Every team will play the three other teams in their pool. The ranking of teams within their pools will be determined by the total number of match points, with the following points awarded per match to each team:

Rules for pool ranking.

- Winner earns 2 match points. Loser earns 1 match point.

Match won	2 points
Match lost	1 point
Match forfeited	0 points (21-0; 21-0)

- For all matches the final team ranking will be determined in accordance with the results of the matches (won or lost). For each match won the winning team will earn 2 match points, for each match lost the losing team will earn 1 match point and for each forfeited match the winning team will earn 2 match points while the forfeited team will have 0 points.
- All discontinued matches or matches not commenced are to be assessed by the TD to determine if the losing team is “DSQ” or “INJ/DSQ” and whether they will receive any match points.
- If a team withdraws due to an injury before or during a match or gets disqualified during a match it will earn 1 match point and will keep the sets and points earned up to that moment, but the sets and points against will be the maximum. For example, if a team wins the first set 21:19 and is injured and forfeits the match when they are losing the second set 4:6, this injured team would earn 1 match point with sets of 1:2 and rally points of 21:19, 4:21 and 0:15. In this example, the winning team would get 2 match points with sets of 2:1 and rally points of 19:21, 6:4, 0:0. In addition, its match result will be marked with “INJ/DSQ”.
- If the injury occurs before the match begins, the match will be marked “INJ/DSQ” and the losing team will be awarded 1 match point with sets of 0:2 and rally points of 0:21, 0:21. In this case, the winning team will be awarded 2 match points with sets of 2:0 and rally points of 0:0, 0:0.
- If a team withdraws without a valid reason before a match (e.g. no show) or during a match (e.g. refusal to continue) they will lose by forfeit 0-2 (0:21, 0:21) and will earn 0 match points. In addition, this match result will be marked with “DSQ”. The winning team will receive 2 match points with sets of 2:0 and rally points of 0:0, 0:0.
- If a team is disqualified during the pool play due to a positive doping test, it will lose all the matches in the pool (played or to be played) by forfeit (see above). It will receive no rank. All of the team’s matches in the Pool will be recorded as a forfeit for ranking purposes. (e.g. All winning teams receive - Sets 2:0 - Rally Points 0:0, 0:0).
- If a team is disqualified after the pool play (after the Drawing of Lots for single elimination phase) of the tournament due to a positive doping test, it will lose the last pool matches played by forfeit (see above). If the single elimination phase has already started and if they have not played yet they forfeit their match and the opponent will be then moved to the next round. The final pool ranking will be maintained. If the team already played its match and won the match, the match result will not be changed, and this team will forfeit the next round. However, if a team is disqualified from the tournament due to a positive doping test after the conclusion of the drawing of lots (for the seeding of the single elimination phase) but before the commencement of the first match of the single elimination phase, they will be replaced in the draw directly by the next eligible team(s) eliminated from the tournament to be decided by FIVB/organizer. And the final pool ranking will be maintained. The disqualified team will receive no final ranking. It should be shown on the bottom of the final standing without rank and “DSQ”.

In the case of a tie in the pools (match points) during the round robin, the following rules will apply:

Between two teams:

- The team with higher rally points ratio in the matches between all teams in the pool, is ranked higher.

- If a tie still exists by rally points ratio, then the teams have the same position in ranking.

Between three teams:

- If three teams have a tie in the main points, then the top teams are ranked by the rally points ratio in the matches between the three tied teams.
- If a tie still exists, then the teams still tied are ranked by the rally points ratio between all teams in the pool.
- If a tie still exists, then the teams have the same position in the ranking.

Between four teams:

- The ranking is determined by the rally points ratio between all teams in the pool.
- If a tie still exists, then the teams have the same position in the ranking.

In the case of a tie in the pools (match points) at the end of the round robin, the following rules will apply:

Between two teams:

- The team with higher rally points ratio in the matches between all teams in the pool, is ranked higher.
- If a tie still exists, then the winner of head-to-head match is ranked high.

Between three teams:

- Teams are ranked by the rally points ratios in the matches between the three tied teams.
- If a tie still exists, then the teams still tied are ranked by the rally points ratio between all teams in the pool.
- If a tie still exists then the teams still tied are determined by the tournament seeding established at the General Technical Meeting (the better seed of the tied teams ranked higher, i.e. seed 12 is ranked higher than 13).

The first two ranked teams from each pool, and the best four teams that rank third in their respective pools (first by match points, then by set ratio followed by rally point ratio and lastly by tournament seeding established at the general technical meeting), will advance automatically to the final phase. The eight remaining third-ranked teams in each pool will play a four-match lucky loser round (5th ranked vs. 12th ranked, 6th ranked vs. 11th ranked, 7th ranked vs. 10th ranked, while 8th ranked vs. 9th ranked); the four winning teams in the lucky loser round will also qualify for the final phase, making a total of 32 teams.

Single Elimination Phase:

The Single Elimination phase will start with the round of 32, which will be played in single elimination format to qualify sixteen teams for the round of 16.

Round of 16

The Round of 16 will be played in single elimination format to qualify eight teams for the quarterfinals.

Quarterfinals & Semi-finals

The quarterfinals will be played in single elimination format to qualify the 4 teams for the semi-finals.

Finals

The winners of the semi-finals will play for the gold medal match and the losers will play the bronze medal match.

12. DRAWING OF LOTS AND DISTRIBUTION OF TEAMS IN THE POOLS

Upon the confirmation of the qualified 48 teams, a drawing of lots will be organized by the FIVB on 30 August 2023 to establish the distribution of teams into pools.

All teams will be listed on 25 August 2023, seeded as per the FIVB WCH Entry Points calculated on 21st August 2023. For the sake of clarity, the seeding points are based on the sum of ranking points accumulated from the best six (6) finishes over the period of 1st February to 21st August 2023.

The best host country team (Mexico) will be seeded no. 12 if they are below the top twelve pairs in the seeding list. The best host country team will be seeded no. 1 if they are one of the top twelve pairs in the seeding list.

The other host country team(s) will be placed as per their natural seeding.

The seed no. 1 to seed no. 12 will be placed in each pool (Pool A to L) in accordance with their respective seeding points. In case there is a tie of the seeding points, then the sum of the athlete's technical points as of 21st August 2023) will be used to break the tie. If there is still a tie, a drawing of lots will be organized to break any eventual ties in the seeding.

Four draws will be conducted as follows:

- Draw 1: from seed #13 to seed #18 in accordance with seeding points to place the teams into Pool L to G (following the serpentine system).
- Draw 2: from seed #19 to seed #24 in accordance with seeding points to place the teams into Pool F to A (following the serpentine system).
