4.3 The calculation of AVC Beach Volleyball National Federation Ranking are as follows:

- The top four (4) ranking points results from the AVC tournaments mentioned above in 4.1, will be counted towards the calculation of the AVC National Federation Ranking. Then the top four (4) ranking points results at Beach Pro Tour tournaments above-mentioned in 4.1, will be added to the total to be calculated to establish the eventual AVC Beach Volleyball NF Ranking.
- The ranking points of the best two (2) teams from each NF per gender from each of tournaments above-mentioned in 4.1, will be counted towards the calculation of the AVC Beach Volleyball NF Ranking.
- The ranking points earned with the best result will be labelled as NF 1 finish and second-best result will be labelled as NF 2 finish.
- The sum of all NF 1 ranking points obtained in the top four (4) finishes at AVC tournaments plus the top four (4) finishes at the Beach Pro Tour tournaments within the above-mentioned period in 4.1, that the NF concerned participated will be the final ranking points of NF 1, regardless of the different players' composition of the team in each tournament, but not including result obtained by an athlete that has qualified to the 2025 FIVB Beach Volleyball World Championships through FIVB Entry Ranking of 5th October 2025.
- The sum of all NF 2 ranking points obtained in the top four (4) finishes at AVC tournaments plus the top four (4) finishes at the Beach Pro Tour tournaments within the above-mentioned period in 4.1, that the NF 2 concerned participated will be the final ranking points of NF 2, regardless of the different players' composition of the team in each tournament, but not including result obtained by an athlete that has qualified to the 2025 FIVB Beach Volleyball World Championships through FIVB Entry Ranking of 5th October 2025.
- There will be a maximum of 2 ranks from the same NF per gender in the AVC Volleyball NF Ranking. Accordingly, it is possible to have 2 ranks from the same NF per gender among the four (4) highest ranks in the AVC Qualification pathway. However, if an NF qualifies a team through the FIVB Entry Ranking of 5th October 2025, any results of both athletes of such team will not be used for calculation of AVC Beach Volleyball NF Ranking, and the next highest result of the team from the concerned NF will be picked up for the calculation accordingly.
- In the case there is a tie in the AVC Beach Volleyball NF Ranking, the tie will be broken firstly by the best result obtained by the NF in 2024 Asian Beach Volleyball Championships; and there is still a tie, then the NF with highest points obtained from all tournaments above-mentioned in 4.1 will rank higher;

and if there is still a tie, a drawing of lots will be conducted by the AVC to break the tie as the last resort.
