1. TIME, PLACE, AND WEATHER CONDITIONS IN PARIS

Time and Place

The Beach Volleyball competition of the Games of the XXXIII Olympiad will be held from 27th July to 10th August 2024. The Beach Volleyball venue is located at the foot of the Eiffel Tower in the center of Paris. The Champ-de-Mars, the park located at the foot of the Eiffel Tower, will become a temporary outdoor arena with a gross capacity of more than 14,000 seats. Its configuration and location will enable spectators, television audiences and athletes to enjoy an exceptional setting between the Eiffel Tower and the Ecole Militaire.

The distance between the Olympic Village and the Olympic Beach Volleyball Venue is approximately 18 kms / 40 mins by car.

Weather Conditions in Paris

Paris has a typical oceanic climate, affected by the North Atlantic Current. The overall climate throughout the year is mild and moderately wet. Summer days are usually warm and pleasant with average temperatures between 15 and 25 °C (59 and 77 °F), and a fair amount of sunshine. Each year, however, there are a few days when the temperature rises above 32 °C (90 °F). Longer periods of more intense heat sometimes occur, such as the heat wave of 2003 when temperatures exceeded 30 °C (86 °F) for weeks, reached 40 °C (104 °F) on some days and seldom cooled down at night.

You can find further information regarding past weather in Paris at the following link:

The field of play area in the Beach Volleyball competition venue is composed of the competition area in accordance with FIVB technical specifications, including playing court (16x8m) and the free zone around the playing court (6m from the sideline and from the end lines of the playing court). There will be a free passageway around this area and the adjacent areas bound by the first row of spectators seating areas for people not involved in the running of the events. Paris 2024, in cooperation with the FIVB will control all access to the competition area.

There will be a total of two (2) courts adjacent to the center court, for athletes to warm-up before each match. Warm-up Courts 1 & 2 will be equipped with the same conditions as Centre Court (including artificial lighting of 1500 lux minimum measured at 1m from the ground).

In case of contingency, warm-up court 1 will be used as a secondary competition court. All required equipment including electronic scoreboard, time and results equipment, etc. will be installed on warm-up court 1 accordingly.

Warm-up courts will be set up using the FIVB homologated sand of minimum 40cm depth, with the same quality used in the field of play on Center court.

Training for the beach volleyball competition will take place at two (2) venues, at the competition venue at the Eiffel Tower Stadium, with two (2) training courts and the possibility to use the two (2) warm-up courts, and at the Jules Ladoumègue venue in Paris' 19th arrondissement with two (2) courts. The training courts will be equipped with artificial lighting and with the same sport equipment as the main court.

Training session slots can be booked and modified at the Sport Information Centre in the Olympic Village or at the Sport Information Desk at the competition venue. Paris 2024 will also put in place an online booking platform.

3. VENUE FACILITIES AND SERVICES FOR ATHLETES

Athlete's lounge (Competition)

A lounge will be available for athletes and team officials at the Eiffel Tower Stadium. It will be open on the 20 July 2024 when the entire venue becomes operational until the end of the tournaments.

It will be supplied with refreshments, including bottled water. Refreshments (hot & cold beverages, fruits and cereal bars) will be available from the 20 July 2024. The lounge will be staffed by athlete services representatives and will have a television, Wi-Fi internet and an information board.

Athlete Preparation Area (Competition Venue)

The Athlete Preparation Area (Competition) is located in the main arena and may be used by athletes preparing for their matches. The Athlete Preparation Area will contain male and female changing rooms, showers and lockers, as well as Team and Coaches Meeting rooms within each changing room, and one Physio and Massage Area.

Catering services (Competition Venue)

Given that shuttles will be planned all day long for athletes to go back at the Olympic Village, the travel time between the Village and the venue, and the fact that the catering will be open all day long at the Olympic Village, no hot meal will be available at the competition venue by the Paris 2024.

Cold meal (lunch boxes) will be available at the Athletes' Lounge, for athletes and team officials who would like to stay at the venue for a long time. It will have to be booked at the Sport Information Desk, the day before.

Athlete Preparation Area (Training)

There are two training venues:

- One at the Eiffel Tower Stadium, which is at the front of house within the competition venue with a total of two (2) training courts in the same dimension as the competition courts. Given the distance between the Olympic Village and this training venue, and the limited time spent by athletes there, there is no separate Athlete Preparation Area for training at the Venue. Instead, the players' facilities provided at the competition venue will be accessed for the athletes training in the same venue. Please note that neither of these two (2) trainings courts are equipped with a lighting system as the sunset is post 21:00 in Paris summer. However, for late training sessions in Eiffel Tower Stadium, dedicated sessions can be booked at end of the day in warm-up courts if required.
- One at the Centre Sportif Jules Ladoumègue, which is a standalone training venue with a total of two (2) training courts with the same dimensions as the competition courts. Changing rooms and temporary shower will be available.

Given the distance between the Olympic Village and the training venues, and the limited time spent by athletes at each training venue, no catering services will be provided in the training venues by Paris 2024. Light food options will be available in the Village for take-away. Additionally, cold drinks (water and sports drinks supplied by Coca-Cola) and hot drinks (tea and coffee) will be available at the training venues.

Doping Control Station

The Doping Control Station at Eiffel Tower Stadium is located in the same area as the Athlete Preparation Area (Competition Venue).

Medical Services

One (1) Athlete Medical Room is located in the competition area and one (1) in training area. Further information will be available in Medical Section.

In addition to the above, Paris 2024 will also nominate physiotherapists in the Eiffel Tower Stadium venue, and a massage service will be offered in the athlete's medical room (competition area). However, considering the number of physiotherapists as well as hygiene protocols required,

the service level will be basic and will be operated by booking a table, that will be posted in the athlete's medical room (Competition Venue). Priority will be given to the athletes who compete in a match that day.

Kindly note that the service time is subject to change should any emergency case occur.

Cold Bath:

Cold bath is available in the athlete's medical room (Competition Venue) and will be managed by the Paris 2024 venue team. The water will be changed regularly following the hygiene protocols.

Internet access

At Eiffel Tower Stadium, free WIFI internet access is available in the Athletes' lounge and other facilities related to sports.

10. ENTRIES AND TEAMS INFORMATION

Verification of qualification standards

The verification of the qualification standards listed above will be carried out by Paris 2024 and the FIVB throughout the qualification period. For a full qualification and entries timeline, please refer to [Qualification System of the Beach Volleyball tournament at Olympic Games Paris 2024](https://en.volleyballworld.com/beachvolleyball/competitions/beach-volleyball-olympic-games-paris-2024/).

Sport Entries

Entries for the Olympic Games Paris 2024 will be submitted by NOCs through the Sport Entries System (SEQ). All entries must be submitted to Paris 2024 using the online entries system by 8th July 2024 as the Sport entries deadline.

Conditions of Participation

As required by the IOC and in accordance with Rule 40 of the Olympic Charter, all NOC delegation members must complete and sign a Conditions of Participation form, acknowledging their compliance

with the IOC and International Federation (IF) rules regarding Games participation and the World Anti-Doping Code.

Late Athlete Replacement Policy

After the sport entries deadline, where there are medical conditions preventing participation of an athlete, proven Anti-Doping Rule Violation (ADRV), or other exceptional reasons, the IOC, after consultation with the relevant IF and IOC medical experts (when deemed appropriate by the IOC), may authorise a permanent replacement of an athlete by another athlete only in the same sport and discipline and event.

This policy is only applicable for those sports/disciplines where the quota place has been allocated to the NOC and not to an athlete by name.

The latest version of Late Athlete Replacement (LAR) policy for the Olympic Games Paris 2024 is updated in February and can be accessed at below link:

<https://en.volleyballworld.com/beachvolleyball/competitions/beach-volleyball-olympic-games-paris-2024/competition/tools>

11. DRAWING OF LOTS AND DISTRIBUTION OF TEAMS IN THE POOLS

Upon the confirmation of the qualified 24 Olympic places per gender, a drawing of lots will be organized by the FIVB on 28 June 2024 at the Champ-de-Mars, Paris to establish the seeding and distribution into pools.

The seeding will be based on Olympic Ranking as of 10th June 2024 (i.e. FIVB Ranking Points earned at the 12 best performances as a team during the qualification period of 1st January 2023 until 9th June 2024) as per definition stipulated in section D. Qualification Pathway of Qualification System) for the 19 teams qualified through host country quota (1 quota place), FIVB Beach Volleyball World Championships 2023 (1 quota place) and the Olympic Ranking list of 10th June 2024 (17 quota places).

In case there will be change of team composition due to medical or force majeure reasons, the FIVB Ranking Points earned at the 12 best performances during the qualification period of 1st January 2023 until 9th June 2024 of each individual athlete, will be added as a sum to establish the seeding points, and will be placed accordingly in the seeding list. However, in case the seeding of the new team is better than the rank of seeding of the quota place earned by the original team composition as of 10th June 2024, the position obtained from the original team composition shall be maintained regardless.

In case there will be a tie of the seeding points described above, the same methodology to break the tie for the Olympic Ranking will be adopted as below:

- The total FIVB Ranking points accumulated in the eligible events (2023 FIVB Senior World Championships, Beach Pro Tour and recognized Continent Tour Finals (in case of multiple participation during the qualification period, only the best result will be considered) counted for the Olympic Ranking earned during the qualification period of 1st January 2023 until 9th June 2024. If still ties,
- The total number of above events participated during the qualification period of 1st January 2023 until 9th June 2024. If still ties,
- The highest FIVB Ranking Points obtained in one single event from the above-mentioned events during the qualification period of 1st January 2023 until 9th June 2024. If still ties, the second highest FIVB Ranking Points obtained in one single event within above date window, if still ties, then third highest or fourth highest, etc., until the tie is broken. In the event that the tie cannot be broken, the quota place will be allocated by a drawing of lots held between the tied teams.

The five teams qualified through the Continental Cup Finals will be added to the seeding list and will be drawn to position of seed # 20 to seed #24.

If a NOC/NF earns two Olympic places per gender through the Olympic ranking, the position of team 1 and team 2 will be based on the Olympic ranking established on 10th June 2024. The team with the better Olympic ranking will be referred to as team 1 while the other team will be referred to as team 2. This clarification between team 1 and team 2 will be used exclusively to conduct the drawing of lots.

Teams from the same country/NOC shall not be drawn into the same pool by defining same country teams as “blocked” team where possible. If a 2nd team from the same country/NOC is drawn into the same pool before the end of the draw (Draw 1, 2, 3 or 4) then that ball containing the 2nd team will be kept out of the draw cup and another team will be drawn. After this new team is drawn then the 2nd team will be returned to the draw cup and the draw continues. If a 2nd team from the same country/NOC is drawn into the same pool at the end of a draw (Draw 1, 2, 3 and 4) then the 2nd team is switched with the last team drawn. If this is not possible (Draw 3 and 4 only) because both teams would be the 2nd team in the last pool, then the drawing is backed up and redrawn to prevent two teams from the same country/NOC being in the same pool. If an error is made, then the drawing will only be revised back to the point where the error was made and not from the beginning of the draw.

The best host country team will be seeded no.1 in the seeding if they are among the top six pairs in the seeding list. The best host country team will be seeded no.6 if they are not among the top six pairs in the seeding list. The 2nd best host country team will be naturally seeded as per their Olympic Ranking points without any special consideration.

The no.1 – no.6 seeding positions will be fixed taking into consideration the regulation on the host country team’s seeding (no.1 or no.6) and the Olympic ranking. The remaining teams will be seeded following the serpentine path through four draws, according to the FIVB regulations as follows:

12. COMPETITION SYSTEM

A total of 24 men’s and 24 women’s teams will take part in the FIVB Beach Volleyball Competitions of the Olympic Games Paris 2024. The total number of athletes will be 48 men and 48 women (Grand total: 96 athletes).

The total number of matches will be 108, comprising of 54 men's and 54 women's matches. The Olympic Beach Volleyball competition will consist of a Preliminary Round, a Lucky-Loser round and a Single Elimination Phase, for both genders.

Preliminary Round

Six (6) pools of four (4) teams will play (Round Robin system) in the Preliminary Round to determine 16 teams advancing to the “Round of 16”. A drawing of lots will be organized by the FIVB on 28 June 2024 in Paris, France, to establish the seeding and distribution into pools.

Every team will play the three other teams in their pool. The ranking of teams within their pools will be determined by the total number of match points, with the following points awarded per match to each team:

Match won	2 points
Match lost	1 point

In the case of a tie in the pools (match points) during the round robin, the following rules will apply:

Between two teams:

- The team with higher rally points ratio in the matches between all teams in the pool, is ranked higher.
- If a tie still exists by rally points ratio, then the teams have the same position in ranking.

Between three teams:

- If three teams have a tie in the main points, then the teams are ranked by the rally points ratio in the matches between the three tied teams.
- If a tie still exists then the tied teams are ranked by the rally points ratio between all teams in the pool.
- If a tie still exists then the teams have the same position in the ranking.

Between four teams:

- The ranking is determined by the rally points ratio between all teams in the pool.
- If a tie still exists then the teams have the same position in the ranking.

In the case of a tie in the pools (match points) at the end of the round robin, the following rules will apply:

Between two teams:

- The team with higher rally points ratio in the matches between all teams in the pool, is ranked higher.
- If a tie still exists, then the winner of head-to-head match is ranked higher.

Between three teams:

- Teams are ranked by the rally points ratios in the matches between the three tied teams.
- If a tie still exists then the teams still tied are ranked by the rally points ratio between all teams in the pool.
- If a tie still exists then the teams still tied are determined by the tournament seeding established at the General Technical Meeting (the better seed of the tied teams ranked higher, i.e. seed 12 is ranked higher than 13).

The first two ranked teams from each pool, and the best two teams that rank third in their respective pools (first by match points, then by set ratio followed by rally point ratio and lastly by tournament seeding established at the general technical meeting), will advance automatically to the final phase. The four remaining third-ranked teams in each pool will play a two-match lucky loser round (3rd ranked vs. 6th ranked, while 4th ranked vs. 5th ranked); the two winning teams in the lucky loser round will also qualify for the final phase, making a total of 16 teams.

Round of 16

The “Round of 16” will be played in a single elimination format to qualify eight (8) teams for the quarterfinals. Seeding of the teams after the Preliminary round will be in accordance with FIVB regulation below.

Semi-finals

The four (4) winners of the quarterfinals will then advance to the semi-finals.

Finals

The winners of the semi-finals will play the gold medal match and the losers will play the bronze medal match.

Awarding Ceremony

It is mandatory for teams winning the medals to participate at the Awarding Ceremony that will take place on the centre court immediately after the gold medal match of each gender's tournament. A press conference and eventually the doping control might be organised for the teams after the conclusion of the awarding ceremony.

Single elimination phase – (round of 16)

The Drawing of Lots procedure (for the single elimination phase)

Additional drawing of lots will be organized on 3rd August 2024 (Day 8) by FIVB and Paris 2024 at the Athletes' Lounge (Competition), after the completion of the preliminary phase and after the lucky loser matches, in order to determine the seeding of the teams in the Round of 16, in accordance with the FIVB regulations.

All teams ranked no.1 in their pool will be placed in the brackets as below (also noted above):

Pool A	Pool B	Pool C	Pool D	Pool E	Pool F
Seed 1	Seed 2	Seed 3	Seed 4	Seed 5	Seed 6

Draw 1:

- The two lucky loser winning teams will be drawn for seeds 15 and 16.
- If either team is 'blocked' from a position then the teams must be automatically placed in the bracket. (The winning team from pool A cannot go to seed 16 and winning team from pool B cannot go to seed 15.)

Draw 2:

- The top two third-ranked teams in the pools will be drawn for seeds 13 and 14 as noted above.
- If either team is 'blocked' from a position then the teams must be automatically placed in the bracket. (Team from pool D cannot go to seed 13 and team from pool C cannot go to seed 14.)

Draw 3:

- All teams ranked second in their pool will be drawn for seeds 7 to 12 as shown below. Note: Teams from the same pool can't play in the Round of 16. However, teams from same NOC/NF will be able to meet in the Round of 16.
- The six teams' names will be placed in a container, with the first name drawn becoming seed 9 and placed as noted above
- The second name drawn becomes seed 8 and placed as noted above.
- The third name drawn becomes seed 12 and placed as noted above (team cannot be from pool E).
- The fourth name drawn becomes seed 11 and placed as noted above (team cannot be from pool F).
- The fifth name drawn becomes seed 7 and placed as noted above.
- The sixth name drawn becomes seed 10 and placed as noted above.

If a team drawn is 'blocked' from being placed in its drawn position, the team will be placed aside and a new team drawn until an eligible team is obtained. The 'blocked' team will then be returned to the container.

If all possibilities for drawings are exhausted, then the remaining teams will be placed in the bracket as required.

If an error is made then the drawing will only be revised back to the point where the error was made, not from the beginning of the draw.

18. RULES OF THE GAME

The Beach Volleyball competition will be held in accordance with the editions of the following documents that are in force at the time of the Games.

- [FIVB Official Beach Volleyball Rules 2021-2024](http://www.fivb.com) (available at www.fivb.com) (in case of a disagreement on an interpretation of these regulations, the English version will prevail)
- IOC Olympic Charter (available at <https://www.olympic.org/documents>)

In accordance with Rule 46 (Technical responsibilities of the IFs at the Olympic Games) and the By-law to Rule 46 of the IOC Olympic Charter, the FIVB will be responsible for the technical control and direction of the Beach Volleyball competition at the Olympic Games Paris 2024.

For default and incomplete teams, the rules featured in this Specific Competition Regulations shall be implemented (refer to point below).

Scoring

Each match is the best of three sets. The first two sets are played to 21 points and the third set, if needed, is played to 15 points. All sets require a two-point advantage (which is unlimited) to win.

Beach Volleyball uses the rally point system (sometimes referred to as RPS) where the team winning a rally scores a point regardless of which team is serving. When a team wins a rally, it gains a point and the right to serve.

At the completion of each match during the pool stage, two points will be awarded to the winner, one point will be awarded to the loser. Zero points or one point is awarded to a forfeited team, as per below scenarios.

Rules for Pool Ranking

For all matches the final team ranking will be determined in accordance with the results of the matches (won or lost). For each match won the winning team will earn 2 match points, for each match lost the losing team will earn 1 match point and for each forfeited match the winning team will earn 2 match points while the forfeited team will have 0 points.

All discontinued matches or matches not commenced are to be assessed by the TD & CC to determine if the losing team is “DSQ” or “INJ/DSQ” and whether they will receive any match points.

If a team withdraws due to an injury before or during a match or gets disqualified during a match it will earn 1 match point and will keep the sets and points earned up to that moment, but the sets and points against will be the maximum. For example, if a team wins the first set 21:19 and is injured and forfeits the match when they are losing the second set 4:6, this injured team would earn 1 match point with sets of 1:2 and rally points of 21:19, 4:21 and 0:15. In this example, the winning team would get 2 match points with sets of 2:1 and rally points of 19:21, 6:4, 0:0. In addition, its match result will be marked with “INJ/DSQ”.

If the injury occurs before the match begins, the match will be marked “INJ/DSQ” and the losing team will be awarded 1 match point with sets of 0:2 and rally points of 0:21, 0:21. In this case, the winning team will be awarded 2 match points with sets of 2:0 and rally points of 0:0, 0:0.

If a team withdraws without a valid reason before a match (e.g. no show) or during a match (e.g. refusal to continue) they will lose by forfeit 0-2 (0:21, 0:21) and will earn 0 match points. In addition, this match result will be marked with “DSQ”. The winning team will receive 2 match points with sets of 2:0 and rally points of 0:0, 0:0.

If a team is disqualified during the preliminary round of the tournament due to a positive doping test, it will lose all the matches in the pool (played or to be played) by forfeit (see above). It will receive no rank. All of the team’s matches in the Pool will be recorded as a forfeit for ranking purposes. (e.g. All winning teams receive - Sets 2:0 - Rally Points 0:0 , 0:0)

If a team is disqualified after the preliminary round (after the Drawing of Lots) of the tournament due to a positive doping test, it will lose the last match played by forfeit (see above), and if they have not played yet they forfeit their match and the opponent will be then moved to the next round. The final pool ranking will be maintained. The disqualified team will receive no final ranking. It should be shown on the bottom of the final standing without rank and “DSQ”. However, if a team is disqualified from the tournament due to a positive doping test after the conclusion of the 2nd Technical Meeting (for the seeding of the single elimination phase) but before the commencement of the first match to be played in the single elimination phase, they will be replaced in the draw directly by the higher placed of the Lucky loser match losers (using the previously defined ratio’s).

Ranking in pools will be determined by the total number of match points earned.

MTO and RIT specific regulations for the PARIS Olympic Games

As per the decision at the FIVB World Congress 2018 in Cancun, Mexico, the Medical Timeout (MTO) is limited to bleeding related issues. According, the protocol procedure is updated in the FIVB Beach Volleyball Refereeing Guidelines & Instructions ([LINK](#)). In addition to the regular game’s interruptions (such as technical timeout and timeout), Recovery Interruption (RIT) was introduced since then and entitles the athletes to medical assistance without any delay to the game.

Recovery Interruption (RIT) is implemented for the scenarios below and can last up to five (5) minutes total. After the designated time has expired, the player needs to decide whether to resume play or forfeiting the match.

- Significant injury caused by a trauma incident suffered during the course of the match.
- Illness in relation to severe weather conditions officially declared or use of toilet.

The safety of all parties is of prime importance to us. The trauma injury is the outcome of an involuntary impact resulting from a playing action. It includes contact between players, players hitting the sport equipment or being hit by the ball, which is quite visible and obvious, and can also be caused by other actions on the court including a twist of the ankle by landing on the sand or knee injury by chasing after a ball, which may not be as visible as the trauma injury resulted from contact.

If the team has an available time out, or the play just finished leading to a technical time out or to the set internal, then treatment can be provided with no delay to the game. Otherwise, the 1st referee shall authorize a 'Recovery Interruption'.

There will be no limit on the number of Medical Timeouts (MTO) awarded to a given athlete during the Beach Volleyball tournaments at the Olympic Games Paris 2024.

Concerning the Recovery Interruption (RIT), a maximum of one (1) Recovery Interruption (severe weather conditions) per player will be permitted during the Beach Volleyball tournament at the Olympic Games Paris 2024.

It is possible for the same player to undergo Medical Timeout (MTO) with Recovery Interruption (RIT) in the same match, as follows:

- MTO (blood related injury): the player must be allowed treatment for blood-related injury at any and all times.
- RIT (trauma related injury): this is allowed at any and all times, however a player is not entitled to a second RIT to treat an injury resulting from a previous trauma incident in the same match.
- RIT (severe weather conditions) or RIT (use of toilets): only one stoppage in the match will be allowed per player. Therefore, no player can be given for RIT (severe weather conditions) plus RIT (use of toilets) and vice-versa, in the same match.
- MTO (blood related injury) and RIT (traumatic injury) stoppages can occur in the same match to the same player, and in addition it is possible for the player to be authorized for one of the other two possible type of RIT (severe weather conditions) or RIT (use of toilets), regardless of the sequence of use.

Additional Recovery Interruption (severe weather conditions) will only be accepted if validated by the FIVB Medical Delegate on duty. In the case where such additional Recovery Interruption (severe weather conditions) is not validated by the FIVB Medical Delegate, then a delay sanction should be issued.

In case an athlete is assigned a medical Recovery Interruption (RIT), or forfeits a match due to injury, immediately following the respective scoresheet administration he/she will be given a copy of the O-VBV-20 form by the game referee.

Upon receipt of the O-VBV-20 form, the athlete, together with the teams' medical personnel, will be responsible for filling in the reasons for the medical Recovery Interruption (RIT) or the forfeit of the match, both shall sign it before the athlete presents him/herself with the form to the FIVB Medical Delegate.

Following a medical assessment supervised by the FIVB Medical Delegate, the athlete will be cleared for the next match by the FIVB Medical Delegate who will confirm that the athlete is fit to participate without putting him/herself at risk. This statement will then be confirmed by the FIVB Technical Delegate(s).

19. FORFEIT

If a team refuses to play after being summoned to do so, it is declared in default and forfeits the match with the result 0-2 for the match and 0-21, 0-21 for the sets. The opponent team will be declared the winner of this match.

A team that does not appear on the playing court on time is declared in default with the result 0-2 for the match and 0-21, 0-21 for the sets. The opponent team will be declared the winner of the match.

A team declared forfeit because it did not start a match within the first 15 minutes of the scheduled time shall be fined up to CHF 20,000, with the possibility of increasing the amount due to additional

damages caused to the organizer and the FIVB, in accordance with Article 12.7.1 of the [FIVB Disciplinary Regulations](#).

The team in question shall forfeit the match. If the same team commits another similar offence, the team shall be eliminated from the Competition and shall be deemed to have lost also all previous matches by forfeit, in accordance with Article 12.7.2 of the [FIVB Disciplinary Regulations](#).

20. PROTEST AND APPEALS

On court disputes shall be resolved under FIVB Regulations as per Protest Protocol directives. The Game Jury shall decide if the protest will be initiated, rejected or accepted at Level 1. The TD/CC will be in charge of resolving any on court protest confirmation at Level 2.

Disputes shall be resolved under FIVB regulations. The Control Committee shall decide on matters in accordance with the present FIVB regulations. All protests and appeals must be lodged with the Control Committee in writing no later than 60 minutes after the end of the match and shall follow the regulations under the FIVB and IOC legal framework.

Protests based on the Rules of the Game will be studied by the Referee Coach and passed on to the Control Committee, accompanied by its resolution, not later than six hours after the protest is submitted. A final verdict will be given by the jury appointed by the Control Committee not later than 12 hours after the protest is submitted or at the latest, before the start of the following match of the team concerned.

Control Committee members of the same nationality as the team making a protest, will be excluded from the deliberations when the protest is being studied.

33. CONTINGENCY PLAN

This Contingency plan intends to guide decision making and set basic thresholds in the event of a delay or postponement rather than provide solutions to all possible eventualities. It should enable anyone to be able to tell the course of action to be taken if any of the broad scenarios introduced below occurred.

- **“DELAY”** - Delay reported but managed within existing session, with no need to postpone the next session. Will try to finish as near as possible to scheduled session end time with no knock-on effects to rest of day's competition.
- **“INTERRUPTION”** - A competition may be subject to an unplanned interruption after it has started. Depending on the sport, competition will be restarted or resumed. The time of restart / resumption is unknown. If the competition cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.
- **“POSTPONEMENT”** – A competition did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled. If an interrupted competition cannot be resumed within the current ticketing session and the new date and start are unknown the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.
- **“ANTICIPATION”** – Anticipation refers to a session having to be brought forward in anticipation of factors that may affect the competition to ensure that a competition can be finished. The procedures for a postponement will be applied when it is proposed to move an event(s) forward in the schedule to an earlier session or to change a session to an earlier start time.

- **“CANCELLATION”** – A competition that cannot be rescheduled prior to the Closing Ceremony of the Olympic Games (Olympic events) or Paralympic Games (paralympic events).

Circumstances whereby a delay, postponement or cancellation might be implemented can be summarized in four groupings:

- **SPORT RELATED** – When the technical components of the sport do not meet the IF requirements, and consequently do not provide a platform for fair and equitable competition. (e.g. the netting on a goal needs to be replaced after warm-up causing a 15-minute delay in the start of the competition, timing system fails, etc.).
- **VENUE RELATED** – When any essential component of the competition venue impacting the sport (outside the field of play) cannot start or continue to perform its designated function at an appropriate and/or safe level (e.g. the overhead lighting system fails and will need to be repaired before the competition can continue, scoreboard fails, etc.).
- **WEATHER/SAFETY CONDITIONS** – When an existing or anticipated concern jeopardizes the fair and safe conduct of the event or poses a threat to the health and/or safety of athletes, spectators and/or workforce (e.g. extreme meteorological conditions, natural disaster, structural failure, etc.).
- **EXTERNAL FACTORS – WHEN INFORMATION FROM EXTERNAL SOURCES MAY JEOPARDISE THE SAFE RUNNING OF THE EVENT. (E.G. SECURITY CONCERNS, ETC.).**

The body responsible for overseeing changes to the competition schedule during the Olympic Games is the Competition Schedule Change Committee (CSCC). Its members include IOC, Paris 2024 and IF representatives.
